JAN 5
2023

**ITAS 2023 CONFERENCE**
MAR 1-3
2023

# Competition Overview

The **ITAS ARAB YOUTH COMPETITION** will be launched as part of the **ITAS Conference 2023** to promote innovation related to **Sustainable Development Goals** among university students in all Arab countries.

The competition is aimed to address issues related to food security, environment, energy, economy, and digital technologies for sustainable development and stimulating applied research and innovation.

Through this competition, the University will provide a valuable opportunity for university students from the Arab region to gain exposure in solving real problems linked to Sustainable Development Goals.

## Two categories are now open for entries

Undergraduate                Post-graduate

The **ITAS ARAB YOUTH COMPETITION** includes two categories under Innovation fields in the Arab Countries. The first category represents undergraduate students while the second category is for the postgraduate students who are currently pursuing their Masters or PhD degree.

# Why Participate?

» Opportunity to participate in the **ITAS Conference 2023** and meet international leaders in sustainability

» To be the winner of the ITAS Innovation Award.

» Promote your university as a leading research and innovation institute within the Arab Countries

» Free registration (*Accommodation, local transport in Qatar, conference fees, meals, and social events*) in the International conference on Innovation and Technological Advances for Sustainable Development in Doha, Qatar.

» Benchmark your innovation on a national and international level.

---

The deadline for submissions is **Dec 5, 2022**

The 10 finalists will be announced on **Jan 5, 2023**

The finalist will be invited to present at the
ITAS Conference 2023 - **March 1-3, 2023**
